\textbf{Agenda Item Title}

Review and approval of the September 2018 financial reports and bank reconciliations.

\textbf{Submitted By}

Finance Director Roger Wood

\textbf{Background/Discussion}

The District’s accounting department staff prepares the monthly financial reports. The District’s annual budget, which is adopted by the Board each June for the following fiscal year (July 1 – June 30), is formatted to mirror the monthly financial statements. The financial reports provide the Board with a monthly recap of expenditures and revenues, along with year-to-date account balance information.

In compliance with A.R.S. §48-807(O), the following reports have been added to the monthly financial statements packet:

1. \textbf{Cash Flow – All Governmental Funds.}
   The Cash Flow report consists of the combined cash balances of all District Funds. These balances include the General (100), Transport Services (150), Capital Projects (200), Special Revenue (400), Debt Principal (500), and Debt Interest (600) Funds. The Cash Flow report is updated monthly with the actual revenues deposited into and actual expenditures disbursed from the District’s cash accounts. It is important to note the revenues and expenditures are reported on a Cash Basis. This report is generated to demonstrate that the fire District maintains sufficient cash available to satisfy the projected expenditures budgeted over the course of the fiscal year.

2. \textbf{Fund Account Bank Reconciliations.}
   The reconciliation of each of the District’s Fund Cash Accounts (General (100), Transport Services (150), Capital Projects (200), Special Revenue (400), Debt Principal (500), and Debt Interest (600) Funds) between the Pinal County Treasurer’s monthly bank statement and the District’s Fund balance sheet report is provided. To signify Board approval of the monthly financial statements and bank reconciliations, the Board Chairman is requested to sign the attached Letter of Acceptance which will be kept on file at the District.

**Agenda Item Title**
Call to the Public

**A.R.S. §38-431.01(H)**
A public body may make an open call to the public during a public meeting, subject to reasonable time, place and manner restrictions, to allow individuals to address the public body on any issue within the jurisdiction of the public body.

At the conclusion of an open call to the public, individual members of the public body may respond to criticism made by those who have addressed the public body, may ask staff to review a matter or may ask that a matter be put on a future agenda.

However, members of the public body shall not discuss or take legal action on matters raised during an open call to the public unless the matters are properly noticed for discussion and legal action.

**Background / Discussion**
Call to the Public is provided so citizens may address the public body (Governing Board) with matters concerning the fire district. Arizona public meeting law provides that the public body may discuss, consider, or decide only matters listed on the agenda and other matters related thereto. Since the public body will generally not know what specific matters may be raised at call to the public, they will be unable to act until the matter is placed on a subsequent meeting agenda (at the Board’s discretion). The Board may also direct staff to follow up on the issue with the citizen.

   Fire Chief Mike Farber spoke briefly to introduce the 2018/19 Operational Plan. He noted that the Operational Plan is approved each September and encompasses all the efforts of the current fiscal year that have been included in the budget. Chief Farber also mentioned that Administrative Services Director Anna Butel had done the work to create this document, and he turned the time over to her to go over the document.

   Administrative Services Director Anna Butel explained that this document is the culmination of efforts of all divisions and departments of the SFMD and its members. Everyone has put in an active role to create this. Due to the changing landscape of the administrative staff, this document has changed from previous years. The new format includes divisions and departments of the District, rather than the categories of Organizational Development, Professional Development, Community Safety and Survivability, and Employee Safety and Survival. Those categories are still encompassed in the initiatives within this document, but the organization of the document is now based on divisions and all the departments within those divisions. This design change is meant to assist managers that use this document in finding their initiatives in a
more effective manner. The day-to-day activities have also been removed from the document, leaving only the larger projects and initiatives that are being worked on this year.

Key initiatives in this year’s document include moving Engine 263 from pilot status to permanent status, subleasing the RTC to create an additional revenue stream, the hiring of firefighters through the SAFER grant, and the implementation of the Lexipol policy software. There are several other initiatives, but these are a few of the larger items.

Clerk Gehrt stated that the document looks good. Director House stated that the document looks good. The new format will make it easier to navigate, and the Board appreciates all the hard work that went into the document.

**Motion** by Director Moeller to approve the 2018/19 Operational Plan and to adopt resolution #2018-09-19-15 formally adopting the 2018/19 Operational Plan.

**Seconded** by Clerk Gehrt

**Vote** 4 ayes, 0 nays. **MOTION PASSED.**

6. **Discussion, presentation and possible direction regarding potential Earned Leave Policy changes. (BOD #2018-09-05)**

Fire Chief Mike Farber stated that per the direction of the board at the last meeting, he completed a survey of other fire districts and fire departments to see how they handle earned leave buyouts. The goal is to minimize sick leave usage and also minimize over time staffing. In addition to the information listed below for other valley and state fire agencies, Chief Farber stated that he and the Senior Leadership Team would be preparing a few different proposals that could be implemented at SFMD. These proposals will contain financial impacts as well as how many employees would be eligible.

Director House asked if Senior Leadership would be speaking with Labor for input on next month’s proposals. Chief Farber replied that he has been in contact with Labor during this process and will continue to keep them involved.

**No motion – not an actionable item.**

7. **Discussion and possible approval of making Engine 263 a permanent Engine Company. (BOD #2018-09-06)**

Fire Chief Mike Farber stated that the pilot program for E263 had helped SFMD achieve improvement in meeting the NFPA 1710 standard of three units (engines or ladders) and one battalion chief on scene within 8 minutes at 90% of the time in the first unit within 4 minutes.

This past month, a fire occurring on E. Kachina shows response times with the first unit arriving in 2:41, and a total of 6 units responding and on scene in less than 8 minutes. This type of response increases survivability and decreases property loss.

The second fire last month was at 1350 S. Warner and had 4 units responding within 8 minutes, with 1 additional unit arriving just 1 second over that.

Just this past week and not included in the presentation, a fire occurred on Gregory St. Only 1 unit arrived within 4 minutes – however, E261 and E263 were on other medical calls and weren’t available. If we had not had this extra unit, the next closest unit would have been E217 coming from Signal Butte and Baseline in Mesa, which would have been a significantly longer response time. This was a $220,000 potential loss, with only around $14,000 worth of damage.

We should expect to see a change in SFMD’s Public Protection Class rating from ISO when we request for them to complete another evaluation.

Travel times have continued to remain faster, with an 8-month average time savings of 39 seconds. This additional unit has done exactly what it was intended to do, which was decrease response times, as well as reduce sick time (down 37% from last year) and employee burnout at the busier stations.

Chief Farber requested that the Board move E263 from pilot status to permanent status, especially with the news that SFMD had received an award for the SAFER grant. Additionally, as part of this approval, there are 2 Engineer positions that he would like to make permanent that are currently in acting status.

Director House asked if this permanent status had been budgeted for. Chief Farber responded that this was budgeted for. Initially this was to be covered with overtime. Once the October 2018 and January 2019 Firefighter academies have been completed, this will be covered with new permanent firefighter positions. Scottsdale also received the SAFER grant, which requires us to get the new
employees on the payroll within 180 days. So we will likely be doing one of these academies with them.

Director House asked what exactly the SAFER grant covers. Chief Farber responded that it is a 3-year grant period to cover Firefighter wages, with year 1 covering 65%, and years 2 and 3 covering 35%. A few of the employees currently in the DROP program, have end dates within the next 3 years. That includes Chief Farber, Chief Ochs, and Engineer Blackstone, to name a few. If anyone else leaves during this period, the SAFER grant allows us to replace them. The grant allows us to hire up to 12 employees, but we are starting with 7.

Motion by Director Strand to approve making Engine 263 a permanent Engine Company.

Seconded by Clerk Gehrt

8. Reports. (BOD #2018-09-07)

Senior Leadership Team (SLT):

Fire Chief Mike Farber

- Today, there was discussion among Senior Leadership to purchase new Cradlepoint devices and antennas as part of the initiative to install the new MCTs. This was not a budgeted item, though there is money to cover this in the 200 Fund. Preliminary quotes bring this to approximately a $17,000 cost. The Cradlepoint devices are capable of toggling between two cell phone carriers, allowing better connectivity for our frontline apparatus.

Clerk Gehrt asked if there was money in the 200 Fund to cover this. Finance Director Roger and Administrative Services Director Anna Butel believe that it may affect other initiatives, but offsets can be made to cover this item.

- AJUSD agreement to sublease the unused portions of the RTC was signed last month. Chief Ochs is continuing to work with the AZ Department of Forestry to get a new agreement in place.

- Chief Ruiz from Tempe Fire was out to present on Leadership at the Captain’s Conference – around 40 employees attended that training.

- 6 New Part Time Transport Services Employees
  - Shane Gereg
  - Jessica Crim
Steve G. Gereg
- Ryan Markham
- Matt Bruno
- Brent Barraza

Assistant Chief of Emergency Operations Richard Mooney

- Last month’s fires:
  - Detached garage fire on 5232 E. Superstition Blvd. Tender operations were utilized since there were no hydrants in the area.
  - The Gregory fire was a laundry room fire caused by a dryer malfunction. They did an outstanding job and contained that to the room of origin.

- Training:
  - EMS Training – Airway
  - Fire Training – Incident Command, several employees recertifying for Blue Card
  - Ladder Training – Modern Ladder Behavior
  - TRT Training – Self-Rescue and Lead Climbing at the Rock Gym
  - Arizona State Fire School
    - SFMD hosted an Active Shooter Drill at the RTC
    - Added 3 more Driver’s Trainers since one of our current trainers is in the DROP (Mark Blackstone) – Sepulveda, McCollough, and Crowley have now been added

- Operations Statistics – Total Incidents last month was 800 with 73% being Rescue and EMS calls (587)

Assistant Chief of Planning & Logistics Richard Ochs

- Growth at the Regional Training Center – Several years ago, AZ Department of Forestry originally had an IGA with SFMD for a single office space. They would now like to move more of their operations here to the RTC rather than in Phoenix. Those discussions are still ongoing. Two weeks ago, they came out with their financial person as part of determining
what they would be able to include in their sublease. The relationship has been good between them and our staff on site. They assist in several things on the campus, including landscaping that they can work on when they aren’t deployed on other assignments, as well as combined training.

- Volunteer Jerome Hansen has been assisting Tina Gerola in Fire Prevention for some time now. He asked if SFMD would sponsor him at State Fire School to complete the Fire Inspector I class. He has some firefighting experience from back east, and he continues to want to serve and assist the community. He’s been a great help to Tina so far and will continue to be an asset.

- Career Day at AJHS – SFMD attended the Career Day at AJHS

- AED/CCR and Stop the Bleed Education at Mountain Brook Village – Partnered with Maricopa Integrated Health
  - Stop the Bleed training is becoming the standard and SFMD will be looking for ways to continue to incorporate it in our training with high school students.

- School Public Education for Grades Pre-K through 6th has begun now that the school year has begun

- Parks and Recreation event Mad Science Night on Friday, September 21st
  - Tina Gerola will be teaching Hands Only CPR
  - A crew will attend to participate in the popular watermelon rubber band bust competition

- Transport Services – Continue to see increases in transports from last year to this year. This department continues to grow and be self-sufficient.

Administrative Services Director Anna Butel

- SAFER Grant Award of $2 million – SFMD officially accepted the award on Thursday, September 13th. Timelines are being created to begin the hiring process to utilize that grant funding.

- Lexipol Policy Software – The implementation team has completed the 2 required webinars to begin working on the project. Initial focus will be on what Lexipol considers “Essential Policies” and those will be brought to the Board as they are ready for approval.

- GIS Mapping – SFMD has been working closely with Mesa Fire & Medical to address some challenges with GIS mapping. Updates coming with street network and address points. This
assists crews in the field with routing via the MCT in the truck. Map rollout from Mesa in the next few weeks. This item is an ongoing process.

Finance Director Roger Wood

- State Land Payment Update
  - District received payment for the October 2017 response to California through the assistance of Congressman Gosar.
  - Since June 2018, the District has incurred $392,616 in expense related to responses in states other than Arizona. This does not include the current deployment to Oregon (Tavares).
  - Receiving payment for these responses during this fiscal year will be crucial to cash flow for FY19/20 budgeting purposes.

Pension Board: Board Clerk Gene Gehrt

- Correction for previous numbers mentioned regarding employees in the DROP program. Clerk Gehrt shows 10 employees currently in the DROP, with 1 additional scheduled for next week’s Pension Board Meeting.
