Position Summary:

Under general direction of the Assistant Chief of Emergency Services, the Deputy Chief is responsible for shift coverage, planning, scheduling, supervising, and administering a comprehensive fire and EMS training program and coordinating the in-service training and safety programs in the Superstition Fire & Medical District. The Deputy Chief may also be required to perform various other duties as required.

The responsibilities of the Deputy Chief will fall into three primary categories:

Strategic Direction: identifying and satisfying strategic objectives through statistical analysis, program evaluation and management, and provides appropriate solutions in support of performance excellence for current and future training and development requirements.

Training Operations: ensuring training excellence by developing and managing processes, which drive highly effective performance through the analysis, design, development, and the delivery of engaging courses and training exercises.

Personnel management: provides managerial leadership in safety, training, operations, and personnel performance through a focused organizational development plan.

Essential Functions:

The following duties ARE NOT intended to serve as a comprehensive list of all duties performed by all employees in this classification. Shown are duties intended to provide a representative summary of the major duties and responsibilities. Incumbent(s) may not be required to perform all duties listed and may be required to perform additional, position-specific duties.

The following tasks are typical for this classification:

- Responsible for the evaluation of the Accreditation Program and standards, Insurance Service Office (ISO), and NFPA 1710 compliance. Gathering and analyzing performance metrics that includes turnout, travel, on-scene, deployment, and reliability times.
- Attend, support, and collaborate with the Regional Operations Consistency Committee (ROCC), the East Valley Training Consortium, and Valley Safety Officers.
- Manage Special Operation Programs; Technical Rescue Team, Wildland, Hazardous Materials, through the budget process and develop strategies and solutions for performance compliance and enhancement. May function as incident commander, senior advisor or support officer during emergency operations, provides BC coverage, and attends Senior Leadership Team meetings and Board Meetings as needed.
- Direct the development, administration, and coordination of the EMS/Fire training program; define performance standards for suppression personnel, engine companies, transportation personnel and volunteers to meet District and industry standards.
- Define training strategies/initiatives and delivery systems that promote performance excellence and support the advancement of performance standards and organizational realities, organizational shifts, new technologies, and government requirements, explore and expand alternative training methods, such as web based training; analyze and evaluate the effectiveness of existing training programs and make required course corrections.
• Ensure training effectiveness of pilot programs by actively leading their development and review;
• Maintain high level of industry acumen by staying abreast of developments and innovation related to fire suppression, emergency medical care, and HazMat as well as instructional materials and delivery techniques.
• Communicate training and performance issues and concerns, as well as recommended solutions, to senior staff regarding fire service and emergency operations
• Facilitate and develop fire academy programs as needed
• Schedule and conduct training and instructional exercises including classroom and field instruction.
• Direct the development and revision of course outlines, lesson plans, training bulletins, visual aids, examinations, and other training materials.
• Manage the re-certification processes of emergency medical care
• Coordinate and conduct some volunteer training activities.
• Instruct District personnel in a variety of subjects relating to fire suppression, safety, emergency medical care and rescue, physical fitness and specialized subjects.
• Instruct and monitor the progress of probationary fire personnel and confer with supervisors regarding progress of probationary fire personnel.
• Provide resource material and support to Battalion Chiefs to enable them to fulfill their shift training, NFPA, ISO & Accreditation compliance and expectations.
• Direct the development and issuance of the training calendar and training bulletins as well as training schedules for suppression training and special courses;
• Maintain all records, electronic files, and logs related to training received by SFMD personnel, including statistics on training results and participant evaluations.
• Maintain the training facility and all training materials and equipment including training videos, viewing equipment, and printed materials.
• Prepare and manage the budget for the Training Department and serves as a key contact through the training development and delivery processes.
• Participate in the review, selection and management of external content development vendors.
• Provide management/leadership guidance to Special Operations, Training Personnel & BSO’s with respect to work activities as well as personal development.
• Clearly define and communicate position expectations and provide on-going and constructive performance feedback to increase individual and team performance.
• Assist personnel in identifying and resolving employee relations and/or performance issues.
• Clearly define, update, and communicate organizational objectives.
• Provide leadership through the program management of initiative and through assistance in identifying and removing obstacles encountered in the course of developing and implementing initiatives.
• Provide technical assistance to personnel and other staff in support of Organizational objectives;
• Provide clear and continual communication to personnel regarding District initiatives, management and policy updates, and industry developments;
• Build knowledgeable and cohesive teams.

Knowledge, Skills, and Abilities:

Knowledge of:

• Modern management principles and practices.
• Management of Fire District operations, effective supervision techniques, principles, practices and techniques of firefighting and emergency operations.
• The laws, codes, ordinances, and regulations related to an autonomous Fire District.
